SUMMARY

Results-driven Domestic Recruiter with 1.4 year of experience in managing the complete recruitment lifecycle. Skilled in sourcing, screening, and hiring candidates for diverse Non-IT/ IT roles across India. Strong understanding of job portals and client requirements. Proficient in search techniques for efficient talent sourcing and identifying suitable candidates. Experienced in interview coordination and ensuring timely position closures in a fast-paced recruitment environment.

PROFESSIONAL EXPERIENCE

Domestic Recruiter

09/2022 – 01/2024

LanceSoft

Indore

- Assisted senior recruiters in sourcing, screening, and coordinating candidates for both IT and Non-IT requirements across multiple domains.
- Worked on hiring for various IT profiles including Java Developer, Python Developer, QA Automation Engineer, QA Manual Tester, C++ Developer, and .NET Developer.
- Conducted initial candidate screening, interview coordination, and follow-ups to ensure a smooth recruitment process for clients and candidates.
- Managed candidate databases and ATS records, maintaining accurate and updated candidate information and interview status.
- Communicated regularly with candidates and hiring teams regarding interview schedules, feedback, and hiring updates.
- Drafted and posted job descriptions on multiple job portals and sourcing platforms in alignment with hiring requirements and company standards.
- Supported end-to-end recruitment activities including sourcing, resume screening, interview scheduling, and candidate onboarding coordination.
- Utilized job portals and Boolean search techniques to identify suitable candidates based on technical skills and project requirement
